

BIT's 1st Annual World

World Congress of Bioenergy

Theme: Developing Bio-renewable Energy from Nature

Time: April 25-30, 2011 Venue: World Expo Center, Dalian, China

BIT's Upcoming Events

Concurrent Penta-Conferences

The 2nd
World DNA
and
Genome Day

The 1st
Annual World
Congress of
Marine
Biotechnology

The 2nd
Annual World
Congress of
Petro
Microbiology

The 2nd
Symposium
on
Enzymes &
Biocatalysis

The 4th
Annual World
Congress of
Industrial
Biotechnology

Nobel Prize Laureates

You can click each laureate's photo to see:

(Supporting Documentation: Confirmation Letter from Nobel Prize Laureates)

The "Nobel Across China Program" encourages young scientists to learn the latest discoveries in their fields. It encourages information exchanges in order to support research in life sciences between China and the rest of the world

Title: Towards a Structural Understanding of How DNA is Replicated into DNA and Transcribed into RNA
Dr. Thomas A. Steitz,
The Nobel Prize Laureate in Chemistry 2009

Title: The Ribosome- an Amazing Machine for Translating the Genetic
Dr. Ada E. Yonath,
The Nobel Prize Laureate in Chemistry 2009

Title: TBD
Dr. Osamu Shimomura,
The Nobel Prize Laureate in Chemistry 2008

Title: The Other Side of the Gene: Protein Degradation – Physiology, Human Diseases, and Drug Targeting
Dr. Aaron Ciechanover,
The Nobel Prize Laureate in Chemistry 2004

Title: The Ubiquitin System in Health and Disease
Dr. Avram Hershko,
The Nobel Prize Laureate in Chemistry 2004

Title: Switches and Latches: The Control of Cell Division
Dr. Tim Hunt,
The Nobel Prize Laureate in Physiology or Medicine 2001

Title: The Looming Crisis in the World's Helium Supply
Dr. Robert C. Richardson,
The Nobel Prize Laureate in Physics 1996

Title: 60 Years of DNA
Dr. Richard Roberts,
The Nobel Prize Laureate in Physiology or Medicine 1993

Title: Our Responsibility as Scientists and Teachers in View of our Global Future
Dr. Richard R. Ernst,
The Nobel Prize Laureate in Chemistry 1991

Title: Function of Proteins Involved in Neurotransmitter Release and Short-term Synaptic Plasticity
Dr. Erwin Neher,
Nobel Prize Laureate in Physiology or Medicine 1991

More... Under Coordination

News Release

- NEW** Welcome Participant from Brown University, USA [2010-11-15]
- NEW** Welcome Participant from Global New Business Development DSM White Biotechnology, USA [2010-11-15]
- NEW** Welcome Participant from U.S. Federal Aviation Administration, USA [2010-11-8]
- NEW** Welcome Participant from Chinese Academy of Sciences, China [2010-11-8]
- NEW** Welcome Participant from Mississippi State University, USA [2010-11-5]

Highlights of the Conference

Renowned Speaker

Dr. Mark Stowers,
Senior Vice
President, Science
& Technology,
POET, USA

Dr. Per Falholt,
Executive Vice
President and CSO
for Research &
Development,
Novozymes,
Denmark

Dr. Heinz Kopetz,
Chairman Aebiom,
European Biomass
Association, Austria

Dr. Carl Kukkonen,
CEO, VIASPACE
Inc., USA

Dr. Ai Bryant,
Vice President and
General Manager,
Boeing Research &
Technology, China

Mr. Thomas A. Byrne,
CPA, President and
CEO, Byrne &
Company, Limited,
USA

Dr. Jaw-Kai Wang,

Hosting Organization

Information Research Center of
International Talent, China State
Administration of Foreign Experts
Affairs, China

China Medicinal
Biotech Association

China Council for the Promotion of
International Trade China Chamber
of International Commerce Dalian
Branch

Operating Organization

BIT Life Sciences, Inc.

WCE 2011
(Jan.25-28, 2011,
Xiamen, China)

PepCon 2011
(March 23-25, 2011,
Beijing, China)

BioSoft 2011
(March 23-25, 2011,
Beijing, China)

ICA 2011
(March 23-25, 2011,
Beijing, China)

WCV 2011
(March 23-25, 2011,
Beijing, China)

WDD 2011
(Apr.25-30, 2011,
Dalian, China)

SEB 2011
(Apr.25-30, 2011,
Dalian, China)

IBIO 2011
(Apr.25-30, 2011,
Dalian, China)

WCBE 2011
(Apr.25-30, 2011,
Dalian, China)

WCMB 2011
(Apr.25-30, 2011,
Dalian, China)

WCP 2011
(Apr.25-27, 2011,
Dalian, China)

Cancer 2011
(May 22-25, 2011,
Dalian, China)

NeuroTalk 2011
(May 22-25, 2011,
Dalian, China)

WSEOR 2011
(May 17-19, 2011,
Chongqing, China)

UOG 2011
(May 17-19, 2011,
Chongqing, China)

- ▶ 8 tracks consisting of 55 sessions covering the advances in modern bioenergy
- ▶ 250-300 oral presentations by scientists, engineers, investors and industry executives
- ▶ Over 50 exhibitors from leading biofuel industries and research institutes
- ▶ 100 poster presentations from both academia and industry
- ▶ 4 optional tour routes to famous cities in China

Download Brochure

Programmed Sessions at a Glance

Track 1: Policy, Economy and Regulatory for Next Generation Bioenergy	Track 5: Biodiesel
Track 2: Breaking Research and Advanced Biofuel Technologies	Track 6: Biogases
Track 3: Resource Assessment and Sustainable Production of Feedstock	Track 7: Bioprocess Development and Engineering Perspectives for Bioenergy
Track 4: Bioethanol and Next Generation Bioalcohol	Track 8: Finance, Strategic Planning, Industrialization and Commercialization
Session for Young Scientist	

Exhibition and Poster

WCBE-2011 provides an ideal platform to showcase your new technologies and products in China. It is developed to maximize exposure of exhibitors, with coffee breaks and poster sessions for delegates taking place in the exhibition area.

Why Reserve a Booth at WCBE-2011

- Meet international leaders in the field of antibody science and technology
- Meet key decision makers from around the world
- Explore business opportunities in China and beyond
- Spotlight your technology and its commercial application
- Take advantage of the targeted audience at the conference and network in the exhibition hall.

Partial Scenery of Tech Tour

The Great Wall

The Palace Museum

The Terracotta Army

The Potala Palace

Nam-Co

Golden Beach

We welcome you to visit the tour webpage to learn more about the routes and prices. To join a tour please contact Ms. Bella Yu at bella@bit-ibio.com.
