About journal

Aims and Scope

The scientific journal "Resources and Technology" is an interdisciplinary peer-reviewed online journal, has an open access publication model, and is published two times a year by Petrozavodsk State University in Russian and English. "Resources and Technology" is a follow-up of "Research Reports of Forest Engineering Faculty of Petrozavodsk State University", which were published in 1996-2012 (volumes 1-9). The journal continues to publish articles in various fields of the forest sector (forest policy and economics, the various aspects of sustainable forest management, wood harvesting, forest industry, forest bioenergy, wooden construction, and forestry machinery) and extends the scope welcoming submissions from interdisciplinary studies on natural resources management and related technology.

The journal publishes analytical overviews, original research and brief communications. The aim is to encourage scientists to publish their research in as much detail as possible. There is no page limit. The article structure should fit into a strict scientific pattern. The object, subject and methods of research should be stated specifically. The research results presentation should permit others to replicate the work. The style of the article should contribute to theoretical understanding and critical analysis of the presented material. In addition, unique features of this journal are i) manuscripts regarding interdisciplinary studies on renewable natural resources in the former Soviet and Nordic countries will be particularly welcomed; ii) manuscripts communicating to a broader audience with regard to projects financed from public funds will be accepted. Special issues are an effective way to draw attention to the on-going research and developing projects. "Resources and Technology" aims to publish special issues that focus on topics of interest to the journal's readers.

The manuscript will be published within 3 weeks to 6 months from the date of its submission. The publication is free of charge. This is an open access journal which means that all content is freely available without charge to the user. It is allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles in this journal without asking prior permission from the publisher or the author. This is in accordance with the BOAI definition of open access. Plagiarism checker applied to all submitted manuscripts.

Review and Referees

"Resources and Technology" applies a double-blind peer review process, in which all manuscripts will be reviewed by at least two reviewers. Authors should suggest at least three potential referees with the appropriate expertise, although the Editor will not necessarily approach them. The proposed referees should be experts in the field and not be current collaborators of the authors nor have published with any of the authors of the manuscript within the last 5 years. The proposed referees should be from different institutions than the authors. Authors may identify appropriate Editorial Board members of the journal as potential referees.

Indexing and Abstracting

We understand the importance of coverage in the indexing and abstracting databases. "Resources and Technology" is covered by following international and Russian indexing and abstracting databases: AGRIS, Ulrich's™ Global Serials Directory, Google Scholar, RSCI (РИЦ), and VINITI (ВИНИТИ). This journal has been configured for evaluation to receive an impact factor in the Science Citation Index Expanded (Web of Science) and SCOPUS as soon as possible.

Editorial board

Prof. Dr. Gerasimov, Yuri (Editor-in-Chief)
Senior researcher
Finnish Forest Research Institute Metla
Address: P.O. Box 68, 80101 Joensuu, FINLAND
E-mail: yuri.gerasimov@metla.fi
[Website](#)

Prof. Dr. Vasilyev, Sergey (Deputy editor)
Head of department
Department of Pulp and Paper and Wood Processing
Petrozavodsk State University
Address: 33, Lenin av., 185910 Petrozavodsk, Republic of Karelia, RUSSIA
E-mail: servas@psu.karelia.ru
[Website](#)

Prof. Dr. Bakay, Borys (Forestry mechanization, Wood technology, Forest roads)
Department of Timber Production and Forest Roads
National Forestry and Wood Technology University of Ukraine
Address: 103 Gen. Chuprynka st., 79057 Lviv, UKRAINE
E-mail: bakay_borys@rambler.ru
[Website](#)

Prof. Dr. Karjalainen, Timo (Forestry in countries with economies in transition)
Finnish Forest Research Institute Metla
Address: P.O. Box 68, 80101 Joensuu, FINLAND
E-mail: timo.karjalainen@metla.fi
[Website](#)

Prof. Dr. Kolesnikov, Gennady (Civil and Environmental Engineering Technology)
Head of department
Department of Mechanics
Petrozavodsk State University
Address: 33, Lenin av., 185910, Petrozavodsk, Republic of Karelia, RUSSIA
E-mail: kolesnikovGN@yandex.ru
[Website](#)

Prof. Dr. Lednitskij, Andrej (Forest sector economics, Forest bioenergy)
Head of department
Department of Economics and Plant Management
Belarusian State Technological University
Address: 13a, Sverdlova str., 220006 Minsk, BELARUS
E-mail: ledniz@inbox.ru
